

R.E.A.C.H.

Reaching to Engage, Affirm, Challenge and Honor New Leaders

A KNEA program designed to identify and develop skills of emerging leaders

Kansas NEA is providing training for identified emerging leaders. As a KNEA leader, **YOU** are important in the identification and recommendation process to train and inspire a group of 20-35 emerging leaders. The training will cover leadership and participation in the association with flexibility to accommodate the needs of the participants. We are looking for recommendations of members who have **8 or fewer years of teaching experience** and have **not held an office higher than association or building representative**. It is important to identify, train, and prepare our newer members for leadership in the association.

After you have identified your potential R.E.A.C.H. nominee, **please contact them** to offer awareness of the training opportunity and to determine they are interested in participating.

Then fill out the form below (one per nominee) and send it to Betty Woods by email: Betty.Woods@knea.org or mail the completed sheet to KNEA ERO Attention: Betty Woods, 11015 W 75th Terrace, Shawnee, KS 66214. You can nominate them online by [clicking here](#).

KNEA will send an invitation to the nominee with more details regarding the session they selected.
